Daisy breaks the stereotype of how girls should look and act in this picture book, which encourages readers to be themselves.

Once upon a time, female elephants had a different skin color than the male elephants. It was pink—candy pink. In order to get that color, the girl elephants had to eat only peonies and anemones, even though these flowers were not recommended as food. Little Daisy did not like to eat these flowers . . .

Candy Pink was originally created by Adela Turin forty years ago to promote equality between boys and girls. This is the first time this book is being published in the US. Essential!

Adela Turin is an art historian living in Paris. In 1974, she founded a children's publishing house in Milan, which she used as a platform to create books about girls' rights. Her work is very well-known in France, Italy, and Spain, and has been translated into several languages.

Nella Bosina co-founded the publishing house with Adela Turin and illustrated her first picture books.
